Project idea:

Center For The Care Of Children
With Special Needs.

About Nabta Center

We started implementing the idea of «**Nabta** » to rehabilitate children with special needs a few months ago, with the aim of providing rehabilitative services for children and implementing the idea on the ground. Believing in social responsibility towards the category of children with disabilities, we have adopted the provision of these services, hoping to achieve our main goal, which is to realize the dream of «**Nabta** » on the ground.

Vision

We strive to provide the best rehabilitation services for children with disabilities and their families and enable them to take on life's challenges and be integrated into the community.

Mission

Our mission is to improve the quality of life for children through rehabilitation and evaluation methods; support and guide children's potential for learning and provide the interactive environment that is culturally integrated and suits the community.

Objectives

- Creating a supportive and stimulating educational environment for children physically, intellectually and emotionally, commensurate with the different abilities of children through the availability of a sensory room.
- Providing early detection services for children with early childhood disorders.
- Actively contribute to societal change and preventive interventions.
- That improve the health of children with early childhood disorders.
- supporting planning ideas and conducting research in the field of early childhood disorders.

Project Scenario:

The Center Keeps Track Of A Center's & It Contains:

Employees, Departments, Patients, Specialists, Storage, Suppliers.
